Germán

Creative (Art) Director

\*not from Germany

As a result of over 18 years of experience working in the creative field as Art Director and consultant for various studios, advertising agencies and corporations, while also serving as a university professor in the field of design - currently based in Dubai - I have been able to hone my skills and become a visual storyteller, creating imaginative and inspirational artworks, working closely with several clients and brands from different countries and multicultural backgrounds.

As an advertising professional, I am well versed in how to create concepts to reach the end consumer. My experience includes conceptualization, development, management and supervision of the different stages of several advertising campaigns, events and activations, Always maintaining direct contact with the working teams, suppliers and clients involved.

At the same time, I have developed a career as university professor in the field of graphic design, gaining additional experience in how to convey ideas to fairly heterogeneous groups of people, thus growing as a visual communications professional.

Please be welcome to know more about myself and my experience, having a look of my work at my website [www.notfromgermany.com](http://www.notfromgermany.com)

Given my background and experience, I strongly believe I am in a position to contribute to the Agency's efforts from the Creative, Art Director, or similar position.

Thank you in advance for your consideration.

Sincerely,

Germán F. González
